

Quilts for Premies

Thanks to all who have made these precious little gifts of love. Premie quilts are given to area Hospitals to be used to cover babies or isolates, behind their backs for support or in other ways as the hospitals determine. Our hope is that the family takes a quilt home with them at discharge.

Specifics: Any size between 30"x36" or smaller – dimensions of an isolate.

Suggested sizes:

- Squares: 18"x18"
- Blankets: 26"x36" to 30"x36"
- Incubator Cover: 5'x6' – cotton backing with no batting

General construction guidelines: **Cotton pieced front.**

The smoother the better – no think bumps or seams. No batting. Please use FLANNEL back.

Light quilting but please do not tie.

There will be someone at most meetings to accept your donations.

Dress an Angel – Unfortunately, not all of the premature babies in our area hospitals survive.

To help the families of these little ones deal with their loss, some members of the Guild provides small gowns and bonnets to families of premies for use as a funeral garments or keepsakes for the parents who select cremation. If you are interested in helping with this project, contact the Charity Chair for more information.
